

Press release

Yachttrim™ recently being appointed MARINEDECK® exterior distributor in South Africa

Recently the MARINEDECK® exterior distribution and PreFab agreement has been signed by Gregory O'Donoghue, managing member of Yachttrim™ in Atlantis – South Africa for the South African market. Yachttrim™ will import MARINEDECK® exterior planks for dealer sales and MARINEDECK® exterior sheet from the manufacturer STAZO *marine equipment b.v.* in the Netherlands to provide the yacht building industry with prefabricated decks made of MARINEDECK® exterior in accordance to provided CAD drawings, templates or digitalized templates.

Yachttrim™ was established in 1996 and manufactures cost effective, special light weight interior furniture for the most discerning boat builders. Perfect fit is the custom nature of Yachttrim™. They claim savings on time and money. Yachttrim™ can count on the full support from STAZO that includes 23 their years of valuable specific marketing, sales, technical and milling experience. Especially being able to supply completely finished and cost effective PreFab decks in any required design, the new MARINEDECK® exterior system now offers unique advantages to any other decking system as to durability, comfort, effective non-skid, insulation properties (sound and temperature), weight, this all apart from STAZO's FSC commitment for "green deck materials" as being the only one in the world.
